- Cooperation with customs services, intelligence gathering, risk assessment procedures and information exchange with other competent authorities
- Use of IT systems (TRACES)

## EU Rules and framework legislation

There is a comprehensive body of Community legislation in place which deals with veterinary border controls. The most important pieces of legislation are given below. Many of these are presented in more details in the following pages.

The Commission inspection service of DG SANTE (Directorate F located in Grange, Ireland) works to ensure effective control systems and to evaluate compliance with EU standards, within the EU, and in non-EU countries that are approved to export to the EU. The Directorate F does this mainly by carrying out inspections in Member States and in third countries exporting to the EU. Each year the Directorate F develops an inspection programme, in agreement with the policy Directorates, identifying priority areas and countries for inspection. The latest programme of the Directorate F can be found at: [http://ec.europa.eu/food/audits\\_analysis\\_en](http://ec.europa.eu/food/audits_analysis_en)
