*Textual search tips

Enter a string present in the BTI. A string is a word or a part of a sentence, e.g. "fruit", "plums", "sour cherries", "table cherries". Do not enter the quotation marks (""). To search information based on part of a word, use the percentage sign (%) as a wildcard character. For example, a search for "%fruit" finds all BTIs in which words such as "fruit", "grapefruit", "kiwifruit", "jackfruit" appear.

List of strings can be entered. Separate the strings by AND to retrieve BTIs where they all appear. Separate the strings by OR to retrieve BTIs where at least one string appears.
