### 1. Important aspects to consider in the control on the entry into the Union of equine animals.

- Definitions of different types of equine animals
- General requirements for the entry of equine animals:

### 2. Study of the different types of entries of equine animals into the Union: examples.

- Entry of equine animals
- Transits
- Re-entries.

BTSF

3. Sampling for Laboratory Test in the entry of equine animals into the Union.
4. Overview of the use of TRACES NT in the entry of equine animals.
5. Summary of the legislation mentioned in this presentation.

## 1. Important aspects to consider in the control on the entry of equine animals

- **1. Definitions:**

- Registered equine animal.
- Registered horse.
- Animals intended for slaughter.
- Equine animal.

**COMMISSION DELEGATED  
REGULATION (EU)  
2020/692**

BTSF

## 1. Important aspects to consider in the control on the entry of equine animals

### ➤ Registered equine animal

- A purebred breeding animal of the species **Equus caballus** and **Equus asinus** entered or eligible for entry in the main section of a breeding book established by a breed society or breeding body recognised in accordance with Article 4 or 34 of Regulation (EU) 2016/1012.
- **Registered horse** is a kept animal of the species **Equus caballus** registered with an international association or organisation, either directly or through its national federation or branches, which manages horses for competition or racing.

## 1. Important aspects to consider in the control on the entry of equine animals

### 3. IDENTIFICATION OF EQUINE ANIMALS.

#### Article 36: Identification of equine animals which have entered the Union.

- **A. The identification document** will be considered valid if they were issued:
  - **In the case of a purebred breeding animal**, by a breeding body in a third country issuing a zootechnical certificate and is listed in accordance with annex 34 of Regulation 2016/1012.
  - **Registered horse**: by a national federation or branch of an international organisation, which manages horses for competition or racing with office in the third country.
  - **In all other cases**, by the competent authority of the third country of origin of the equine animal.

**\*REGULATION (EU)  
2021/963**

## 1. Important aspects to consider in the control on the entry of equine animals

### 3. IDENTIFICATION OF EQUINE ANIMALS.

**Article 21 (2):** equine animals shall only be permitted to enter the Union if they are **individually identified** by at least one of the following methods:

- **An injectable transponder or eartag**, with a legible and indelible display of:
  - An identification code of the animal that establishes the link between the animal and the animal health certificate.
- In the case of **equines animals other than those for slaughter**, an **identification document** that:
  - Describes the animal, including the alternative method of identification, so that establishes link between the animal and the identification document.
  - Contains information on the individual code of the transponder if it does not comply with the point above.

**COMMISSION DELEGATED  
REGULATION (EU)  
2020/692**

## 1. Important aspects to consider in the control on the entry of equine animals

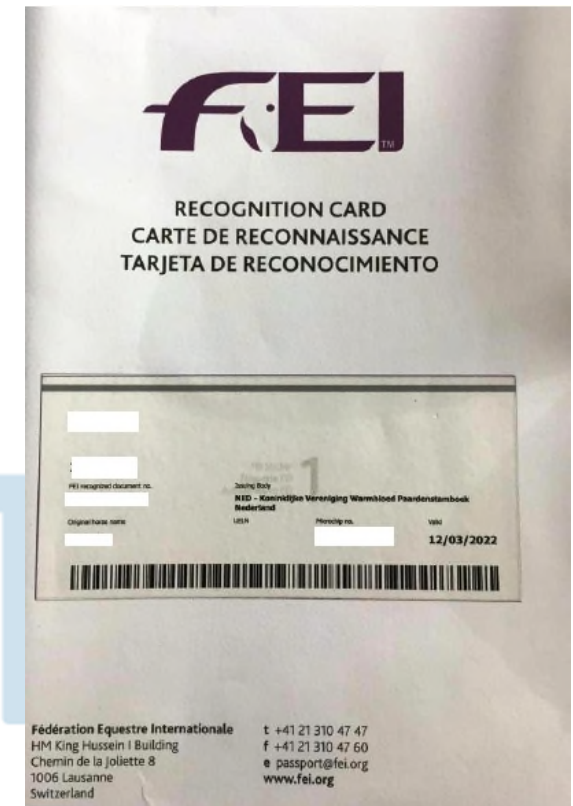

(Continued)

B. The Identification Documents comply with all the **requirements of article 17\***.

\*Note:

- **Transitional measures:** the rules on the format and content of identification documents issued for equine animals born in the Union provided for in Annex I to Regulation (EU) 2015/262 shall remain applicable until 27 January 2022.
- **Annex II of Regulation (EU) 2021/963** shall apply from 28<sup>th</sup> of January 2022.

**\*REGULATION (EU)  
2021/963**

## 1. Important aspects to consider in the control on the entry of equine animals

### 4. AUTHORISED THIRD COUNTRIES & SANITARY GROUPS.

**Article 24 (6)** consignments of equine animals shall only be permitted to enter the Union if the animals of the consignment comply with the **specific conditions set out in point 1 of Annex XI**, depending on the **SANITARY GROUP**

➤ Authorised third countries are classified into **Sanitary Groups** – details in table in Annex IV, PART i, column 3 of Regulation 2021/404.

- 7 sanitary groups: A to G.
- In point 2 of annex XI the specific requirements for the disease referred to in point 1. Each group requires serological tests with negative results for certain equine diseases. In the case of the diseases AHS\* and VEE\* or agent identification may also be performed.

**\*COMMISSION IMPLEMENTING  
REGULATION (EU) 2020/692**

\*AHS: African Horse Sickness

\*VEE: Venezuelan Equine Encephalomyelitis
