

Animal Nutrition (AN)

Factsheet

Course learning objectives

The course will allow participants to improve their knowledge and practical skills on the requirements governing the marketing of feed, feed materials, compound feed and feed additives, in particular:

- ✓ requirements concerning the marketing of materials intended for use as animal feed including feedingstuffs intended for particular nutritional purposes;
- ✓ requirements concerning materials whose circulation or use for animal nutrition purposes is prohibited or restricted;
- ✓ rules for the labelling of feedingstuffs, including feed additives;
- ✓ legislation on undesirable substances in feed.

Content index

Pre-test

General Welcome

General requirements concerning the marketing of feed including feeding stuffs

Requirements concerning feed additives, borderline cases and medicated feed

Rules for the labelling of feedingstuffs, including feed additives

Legislation on undesirable substances in feed

Final test

BTSF participant Satisfaction Questionnaire

Duration

The estimated duration of this eLearning module is circa 6/7 hours.

Please note that the effective duration of the learning process is influenced by some different factors:

- the initial background in this field
- the study method
- the attention dedicated to more readings such as in depth contents, useful links, etc.

Participants

Eligible beneficiaries are National Authority staff dealing with animal nutrition issues in EU Member States, as well as in Non-EU Countries.
