Subject: African swine fever – three outbreaks in Estonia located in Parts II and III of the Annex to Commission Implementing Decision 2014/709/EU

Message:

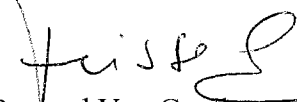

Please find attached information from the Estonian authorities regarding the confirmation of African swine fever (ASF) in three additional farms. Two commercial farms are located in Tartu (Puhja parish) and Jarva (Roosna-Alliku parish) counties. The backyard farm is located in Valga country, Taheva parish.

Measures in line with Council Directive 2002/60/EC are being implemented. The protection and surveillance zones have already been established and are shown in the attached maps.

Please note that all three farms are already located in the restricted areas listed in Parts II and III of the Annex to Commission Implementing Decision 2014/709/EU.

I will keep you informed about further developments.

Yours faithfully,

 Bernard Van Goethem
